Additional Consignments

U. S. RARITIES

MINT STATE 1803 CENT

Lot No. 35

- 35 **1803 S. 251. Small Date. Small Fraction**. A superb Uncirculated example. Lustrous, light olive and faded mint red starting to tone to a deeper shade. A very lovely coin. A variety lacking in the Helfenstein Collection where comparable coins of this date fetched in excess of \$1,000.00. From our June 20, 1968 Sale.

EXTREMELY RARE

1867 WITH RAYS NICKEL IN BRILLIANT PROOF

Lot No. 36

- 36 **1867 Rays.** From the R. L. Miles, Jr. Sale, April 1969, where it was described as follows: "**Brilliant Proof.** A sharply struck example with two-tone appearance. High wire edge both obverse and reverse. Fully equal to the Charles Jay specimen which was considered the finest known example of this rarity. The coin has a pale golden toning which adds to its over-all beauty. It is extremely rare in this condition, and only when important collections as the Stadiem-Gardner, Jay and Dines collections become available does the collector have an opportunity to acquire an example. Just a few specimens extant. We would not be surprised if this coin sold in the middle four figure range." It realized \$3,100.00 at that sale. With the current demand for rarities this coin should easily bring \$5,000.00.

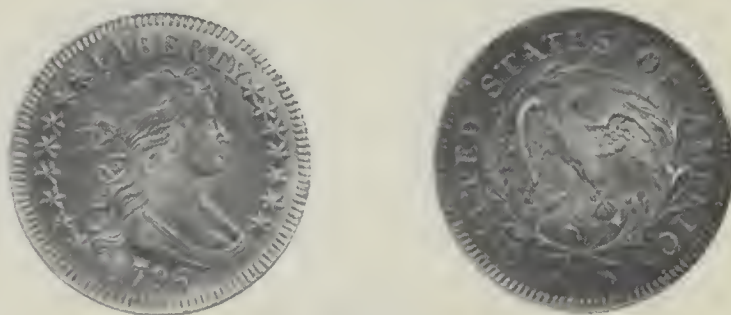

SUPERB 1796 DIME

Lot No. 37

- 37 **1796.** From our June 1968 Sale, Lot 43 where it was described as follows "**1796 The first year of issue. Brilliant Uncirculated, gem,** lustrous surfaces. Small rim break over the 7th and 8th Stars. Light golden iridescent toning in the centers blending with blue iridescent toning about its periphery. A delight to behold From the Arnel Sale". The coin brought \$3,400.00 at that sale and should surely bring close to \$4,000.00 today.

SPLENDID 1796 QUARTER

Lot No. 38

- 38 **1796 The first year of issue.** Draped bust of Liberty right. 15 Stars and Liberty around. Reverse: Small eagle perched on clouds, inscription around. The eagle's head is weak as usual. **Brilliant Uncirculated,** proof-like surface. Exquisite sea-green, blue and pink iridescent toning. A splendid coin and a marvelous companion piece to the 1796 Dime above.

EXTREMELY RARE

1842 PROOF SMALL DATE QUARTER

Lot No. 39

- 39 **1842 SMALL DATE.** From the R. L. Miles, Jr. Sale, April 1969, where it was described as follows: "**Brilliant Proof.** A choice specimen. Light toning mostly about its periphery. The 1842 Small Date is **ONE OF THE RAREST SILVER COINS STRUCK.** We can locate records of it appearing at Auction only TWICE; in the Harlan P. Smith Collection, sold by Henry Chapman in 1906, and in the Century Sale, 1965. This specimen is from the Century Sale. The cataloguer wrote, '\$20,000.00 could probably not buy another.' We agree, although we feel in today's market \$12,500.00 or so would be more realistic.

After conferring with John J. Ford and Walter Breen, we have compiled the following list of known 1842 Small Date Proof Quarters:

1. The Smithsonian Institution specimen.
2. The American Numismatic Society specimen.
3. A specimen in a private Midwestern Collection.
4. A specimen in the Estate of a New England Collector.
5. The Jerome Kern specimen (probably in the collection of a gentleman from Vermont).
6. The Century coin (more than likely the Harlan P. Smith coin).

The first five of these examples will not be offered for sale in the foreseeable future. When it is remembered that the Dupont, Wolfson, Dunham and Atwater Collections, among the greatest sold in the last half century, lacked the Proof 1842 Small Date Quarter, the great rarity of the coin can be fully appreciated. Many years ago we sold one of the specimens listed above privately. We now take great pride in being able to offer the Century coin to the Collecting Fraternity for the first time in a Stack's Public Auction Sale." The coin realized \$12,000.00 at that sale. It is indeed quite difficult to arrive at an estimate of its worth in today's market. We can only draw a comparison between this coin and the 1823 and 1827 which were also in the Miles and later in our March 1974 Sale. Since those coins brought approximately three times what they sold for in 1969 we feel justified in appraising this coin for \$35,000.00.

MAGNIFICENT 1795 SILVER DOLLAR

Lot No. 40

- 40 **1795 Bolender 14. Draped Bust.** From New Netherlands 48th Sale, November 24, 1956 of the T. James Clarke Collection, Lot 614. It was described in that sale as follows: "Variety with bust placed too far to left. Rv. Very small eagle. Called 'Uncirculated Gem' and the 'Finest Known' by Mr. Clarke. This piece is the closest thing to it. Fully struck up at hair, and almost so at eagles breast, less so on left leg. A sharp, neatly impressed coin; free from rubbing or friction, but close inspection reveals microscopic signs of handling, particularly two minute border nicks at the l. reverse. Magnificent blue, pink, lavender and gold toning; both sides somewhat mirror-like. Obtained from B. G. Johnson, and undoubtedly a Brand item. Worth a generous bid!"

The coin is in the original rectangular gold-tooled cardboard box so familiar to the Clarke coins inscribed as follows: "1795 Fillet Hd. Unc-Gem H-14" on the cover, and "1795 Sil.Dol. Fillet Head H #14. Finest Known Unc. Gem" on the bottom.

This specimen is without question equal to any we've seen or handled and will prove to be the highlight of this Sale. There have been recent sales of this date into five figures and this coin has the potential to top them all!

VERY RARE 1838 GOBRECHT DOLLAR

REEDED EDGE

Lot No. 41

- 41 **1838 Gobrecht Dollar.** Liberty seated, stars around. Reverse: Eagle flying in a plain field. **Reeded edge.** Some 25 reported struck. Brilliant Proof, delicate russet toning. The specimen in our R. L. Miles, Jr. Sale realized \$4,750.00.

VERY RARE 1850 PROOF SILVER DOLLAR

Lot No. 42

- 42 **1850 Brilliant Proof.** A superb example of this early date proof of which only few are known. A perfect two-tone appearance with a wire edge. Delicate golden and iridescent toning. Easily worth a bid of a few thousand dollars.

VERY RARE 1851 SILVER DOLLAR

Lot No. 43

- 43 **1851 Centered Date (Restrike). Brilliant Proof** with a high wire edge. A splendid coin but for one small abrasion in the obverse field near the 10th Star. A very rare date which we have not been privileged to offer in quite a few sales.

MISCELLANEOUS U. S. COINS

- 44 **5c.** 1919 Deep iridescent toning; 1920 Lightly speckled. Brilliant Uncirculated. 2 pieces.
- 45 **5c.** 1930, 1930 'S' Brilliant Uncirculated, lightly toned. 2 pieces.
- 46 **50c.** 1836 Lettered Edge. Brilliant Uncirculated gem with considerable prooflike surface. Better than the Hawn coin at \$270.00.
- 47 **50c.** 1838 Brilliant Uncirculated, very delicately polished but still frosty. A few light hairlines. Quite a good-looking coin.

Lot No. 48

- 48 **New York.** 1787 Nova Eborac. Figure seated right. An exceptional specimen almost perfectly centered with the hair and epaulets nearly in full detail. The date is full as are all the devices. Extremely Fine.

ROLLS OF U. S. COINS

- 49 **1c** 1909 Lincoln. Brilliant Uncirculated, mostly with full color. More than likely an original roll. **1 roll or 50 pieces.**
- 50 — 1930 'S' Brilliant Uncirculated and virtually every coin with full color. 43 coins are full color. 6 coins have some spotting. 49 pieces in all.
- 51 — 1932 'D' Brilliant Uncirculated. An original roll of 50 pieces. Full color with some faint toning, only a few have some specks. **1 roll or 50 pieces.**
- 52 **50c.** 1949. A partial roll of **17 pieces.** Brilliant Uncirculated.
- 53 — 1955. A full **roll of 20 pieces.** Brilliant Uncirculated.

U. S. PROOF COINS

Only twice before have we had the pleasure of offering such an extensive group of Proof coins individually by the year. In 1951, we handled the famous Proof Collection of Mrs. Henry J. Ford, and in 1967, we sold the Charles Jay coins. In both cases, the Proofs were arranged in this unusual way.

In our present Sale, most of the years are complete by denominations and the vast majority of the rarities are represented. On the other hand, a few dates and denominations are missing because it was not possible for the owner to obtain specimens in a state of preservation that met his high standards.

When describing these coins, the cataloguer has avoided, for the most part, the all too familiar high calibre adjectives so frequently used to represent the quality of a Proof. Many specimens certainly fall within the "gem" category, although we prefer not to use the word. We have tried to confine our esthetic enthusiasms to dealing with color variations. But of course, all the relevant minor defects have been duly noted.

We certainly hope that our attempts to give you a clear picture of each coin are successful. In view of the care with which the owner selected his pieces, it is safe to assume that they are in much above average condition. Your bidding should be regulated with this thought in mind.

We hope that you will find our method of presenting this collection to your taste. It can be added that we hope you will all have the good fortune to make one or more of these lovely specimens your own.

Reverse, usual spread eagle with shield on breast, value TEN D. below; legend UNITED STATES OF AMERICA. Milled edge. **Uncirculated** with almost full mint lustre. It is the cataloguer's opinion that this lovely specimen will realize quite a few thousand dollars.
